## **I. INTRODUCTION**

### **1.1 Background**

- 1.1.1 The Peer Review of the performance of Participating Institutions of the Association of African Development Finance Institutions (AADFI) with the PSGRS in 2017 was conducted in Abuja on 8 November 2017.
- 1.1.2 Preparation of the assessment report followed the process prescribed in the PSGRS. The following activities were performed sequentially:
  - a. The General Secretariat of AADFI published the guidelines governing the Peer Review in 2016 by a circular letter dated April 3, 2017 and sent a reminder on June 27, 2017 for the information of all Member Institutions and Participants.
  - b. The General Secretariat received self-evaluations as prescribed and proceeded with the preparation of the analytical tools.
  - c. The Consultant checked the tables and information from the self-evaluations with a view to ensuring the correctness and the completeness of the data provided and performed the analyses of the results.
  - d. The consultant prepared the report submitted for consideration by the Peers on November 8, 2017 in Abuja.
- 1.1.3 Tables in appendix provides detailed figures for full understanding of the report.

### **1.2 Acknowledgements**

- 1.2.1 The Consultant wishes to reiterate its appreciation for the opportunity offered by the Association and its Executive Committee, to prepare this assessment report. He expresses sincere thanks to Mr. J. A. Amihere, Secretary General of AADFI and his team, for their active cooperation.

## **II. OVERVIEW OF THE VISION AND OBJECTIVES OF THE PSGRS**

### **2.1 Vision**

- 2.1.1 The PSGRS is designed primarily to assist each participating institution, its owners, examine its own operations and, in so doing, to identify and consolidate its strengths and to address weaknesses.
- 2.1.2 The identified strengths will be assets to safeguard and showcase for the sustainability of the institution and especially for possible engagement in mutually beneficial partnerships. On the other hand, identified weaknesses will guide the planning, organization on the definition of institutional, organizational, financial or operational reforms.

## **2.2 Objectives**

2.2.1 The five objectives of the PSGRS are as follows<sup>1</sup>:

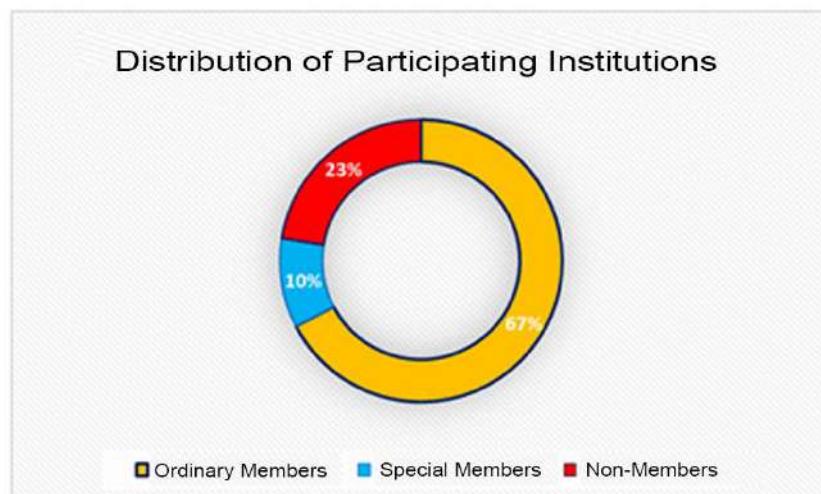

- a. Provide DFIs with useful guidance as to what their own rules and regulatory policies should be as well as a benchmark to compare these policies and results with other DFIs in the African region.
- b. Introduce a self-regulated early warning system for DFIs to assist them in initiating credible remedial measures before they are forced to do so by owners, regulators or lenders.
- c. Provide central banks and owners in some countries with useful proposals for possible custom tailoring of existing regulatory requirements imposed on DFIs as well as providing them with some leverage to require weaker DFIs to take corrective measures when they are showing signs of trouble.
- d. Provide donors with a useful set of standards and yardsticks by which to assess DFIs and their suitability as financial intermediaries' worthy of funding and/or technical assistance support.
- e. Improve the reputation of DFIs that apply the standards through the adoption of best professional practices to enable them easily present comparable results with similar DFIs in Africa, defend the results with the certification from AADFI through Peer Review when presenting application for financing from fund donors for assistance.

## **III. ANALYSIS OF PARTICIPATION IN THE PEER REVIEW**

### **3.1 Participation in 2017**

3.1.1 Participation in the Peer Review in 2017 recorded 49 African financial institutions, as indicated in Table No. 2; those institutions are distributed as follows:

- 33 ordinary AADFI member institutions
- 5 Special AADFI member institutions
- 11 non AADFI member institutions (marked with Asterisk in the table in appendix.)

<sup>1</sup> AADFI, Prudential Standards, Guidelines and Rating System designated for Development Banks and Development Finance Institutions in Africa, Documents, mars 2009, Introduction, pp. 7 - 8 (English Version).

3.1.2 The participation of non AADFI member institutions was facilitated by the SADC Development Finance Research Center (DFRC), a specialized agency of the South African Development Community (SADC) which collects and transmits to the AADFI Secretariat the self-assessment results documents from institutions in Southern African Region. The cooperation between the Agency and the AADFI is a good example of institutional cooperation.

### **3.2 Evolution of participation between 2016 and 2017**

3.2.1 Participation in the Peer Review significantly increased in 2017. The total number of participating institutions increased by 29% from 2016 to 2017. The total number of participating institutions increased from 38 to 49 of which:

- 31 institutions participated in 2016;
- 12 institutions did not participate in 2016, but had participated before;
- 6 institutions participated for the first time in 2017.

3.2.2 On the whole, this result is very encouraging, because the total number of participants significantly increased for two categories of institutions:

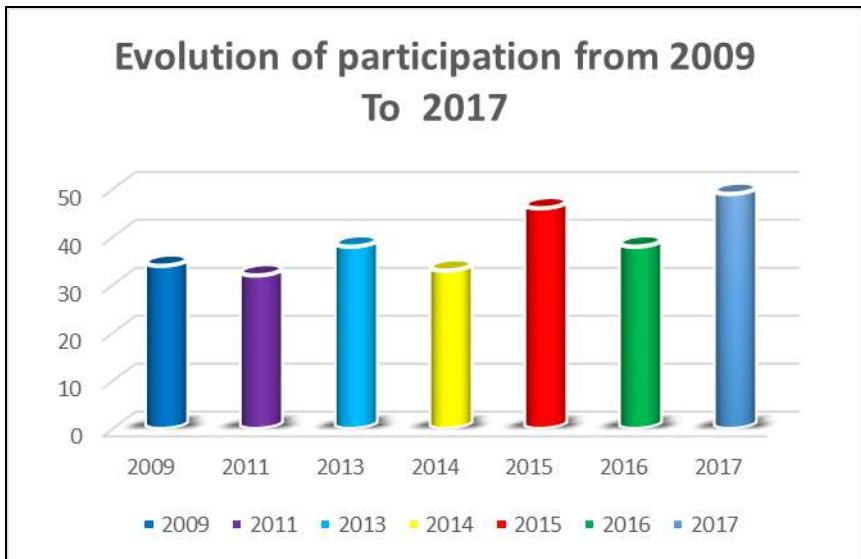

- The total number of AADFI ordinary member institutions increased from 26 to 33, or an increase of 27%;
- The total number of AADFI special member institutions slightly dropped from 6 to 5, or a drop of 17%;
- The total number of non AADFI member institutions specifically increased from 6 to 11, or an increase of 83%;

3.2.3 This result reflects in particular a better understanding of the objectives of the PSGRS by a larger number of African financial institutions and also the strengthening of bilateral relations between African development finance institutions and the AADFI secretariat;

3.2.4 Another favorable factor was certainly the successful holding of the consultative workshop on the revision of the Prudential Standards, Guidelines and Rating systems (PSGRS), at the AADFI headquarters in Abidjan on 10 and 11 April 2017. The report was presented to the Executive Committee at its meeting held in Ahmedabad, India on May 21, 2017. The results of the delegates' work at the workshop responded to the concerns of the participating DFIs, as was expressed at the CEO forum in Kampala on November 2015.

### **3.3 Evolution of participation between 2009 to 2017**

3.3.1 The Peer Review in 2017 is part of the series which began in 2009. It was organized every two years until 2013. Since 2014 it is conducted every year. The number of participation in the previous editions of the Peer Review are presented below:

- 3.3.2 The number of participating institutions went up and down. From 2009 to 2014 and in 2016, this number was less than 40 participating institutions each year. On the other hand, this number was above 40 participating institutions from 2015 to 2017.
- 3.3.3 In this respect, the awareness efforts of African development finance institutions made by the General Secretariat of AADFI have undoubtedly begun to produce significant results. These efforts deserve to be strongly encouraged by member institutions and supported with adequate budget.

### **3.4 Quantitative analysis of participation by regions from 2015 to 2017**

- 3.4.1 The details of the 2017 participating institutions analysis are in annex, table N°6. The box N° 1 below is showing the comparative participation per region from 2015 to 2017.

**Box 1: Distribution of participating institutions by regions in Africa**

Regions	2015	2016	2017
Central Africa	0	1	2
North Africa	1	3	4
West Africa	8	9	9
East Africa	13	11	15
Southern Africa	24	14	19
Totals	46	38	49

- 3.4.2 Box 1 shows that participation from the Central Africa Region and the North Africa Region have steadily increased from 2015 to 2017; the West Africa Region is stable in 2016 and 2017; the East Africa Region exceeded in 2017 its highest level reached in 2015 while the Southern Africa Region remains below its highest level reached in 2015. The quantitative change in participation by region can be summarized as follows:

- The participation of two institutions in Central Africa in 2017 against 1 participation in 2016 and no participation in 2015;
- Four institutions in North Africa participated in 2017 against three institutions in 2016 and one in 2015;
- Nine institutions in West Africa participated in 2017 as in 2016 and eight in 2015;

- Fifteen institutions in Eastern Africa participated in 2017 against eleven in 2016 and thirteen in 2015;
- Nineteen institutions of southern Africa participated in 2017 against fourteen in 2016 and twenty-four in 2015;

## **IV. PERFORMANCE ANALYSIS**

### **4.1 Analytical tools**

- 4.1.1 The analytical tools are made up of six tables developed according to the PSGRS.
- 4.1.2 Table 1 concerns the results of compliance of each of the participating institutions in the 100 rating standards while Table 2 presents summaries of the three Sectors of assessment (governance, finance and operations) and the 17 subsectors of the PSGRS rating standards.
- 4.1.3 Table 3 presents the compliance results of each participating institution and arrange them according to ratings. Table 4 presents the weighted averages of the compliance results by sectors and subsectors, concerning all the participating institutions and arrange them in descending order.
- 4.1.4 Table 5 shows the summary of the results obtained by the participating institutions in the Peer Reviews exercises from 2009 to 2017. It allows to identify the frequency of participation of each participating institution in the Peer Reviews.
- 4.1.5 Table 6 presents the same summary of the results obtained by the participating institutions according to the 5 Economic Regions in Africa: West, East, Central, North and South.

### **4.2 Analysis of the results of 2017 by Standards**

- 4.2.1 Table 1 shows the scores obtained by each participating institution for each of the one hundred standards of the PSGRS. The last but one line at the bottom of the table provides the number of standards complied out of hundred standards of the mechanism. by all the participating institutions for each of the one hundred standards.
- 4.2.2 A significant progress can be observed as a whole, because the total number of standards complied with over 80% represents 67 standards in 2017 against 65 in 2016 and 56 in 2015.

#### **The progress in other number of standards is observable:**

- The number of standards, complied with from 79% to 70% represented 21 standards in 2017 against 28 in 2016 and 24 in 2015. This trend has been upwards and downwards;
- The number of standards, complied with from 69% to 60% represented 9 standards in 2017 against 4 in 2016 and 13 in 2015. This trend has been upwards and downwards;
- No standard was complied with from 59% and 50% in 2017, against 1 in 2016 and in 2015 as well. The change is satisfactory.
- The number of standards, estimated at less 49%, represents 3 standards in 2017 against 2 in 2016 and in 2015. This change is unsatisfactory.

4.2.3 Box 2 provides details of compliance results by groups of criteria and performance levels. The progress result is mixed on the whole:

- The level of performance "very high" (80% to 100%) concerns 67 standards in 2017 against 65 in 2016 and 56 in 2015; progress has been constant.
- The level of performance "very high" (80% to 100%) concerns 67 standards in 2017 against 65 in 2016 and 56 in 2015; progress has been constant.
- the level of performance "high" (70% to 79%) concerns 21 standards in 2017 against 28 in 2016 and 24 in 2015. The progress is contrasted.
- The combined performances "very high" and "high" concern 88 standards in 2017 against 93 in 2016 and 80 in 2015. Progress is mixed.
- The "average" performance level (60% to 69%) concerns 9 standards in 2017 compared to 4 in 2016 and 13 in 2015. Progress is mixed.
- The "fair" and "low" levels (50% to 59% and 30% to 49%) concern respectively 0 and 3 standards in 2017 compared to 1 and 2 in 2016 and in 2015. There has been a clear improvement in the "passable" and a decline to the "low" level.

### **4.3 Analysis of the results totals by Standards**

- 4.3.1 Table N ° 4 shows that the area of governance enjoys the highest level of compliance, namely 86% in 2017 as much as in 2016 and 2015, followed by the area of operations with 81% in 2017 compared to 82% in 2016 and 78% in 2015, and the Finance sector with 77% in 2017 against 79% in 2016 and 77% in 2015. The collective level of compliance is estimated at 82% in 2017 against 83% in 2016 and 81% in 2015. The collective progress is slightly lower in 2017 compared to 2016.
- 4.3.2 By sector, the highest average compliance remains 92% in 2017 as in 2016 regarding «the independence of the Management and Incentives» as in 2015 concerning "Accounting and Audit". The lowest average compliance score is 63% in 2017 and 2016 for "Profitability and Efficiency" compared to 64% in 2015 for "Operational Strategy Policies". The collective progress is mixed.

### **4.4. Rating Assignment**

- 4.4.1 As a reminder, the following box summarizes the matrix of ratings in effect.

**Box 3: Rating Matrix**

Categories	Codes	Results %	Remarks
A	AA	91-100	Excellent
	A+	86-90	Very Good
	A	80-85	Good
B	B+	76-79	Fair
	B	70-75	Satisfactory
C	C+	66-69	Average
	C	60-65	Below Average
D	D+	56-59	Low
	D	50-55	Very Low

- 4.4.2 Table N ° 2 presents the weighted total scores obtained by each participating institution. These results serve as a basis for the rating. Table 3 reflects the total weighted results in the ratings matrix. As shown in Box 4 as shown on the following page, it appears that:
- 12 institutions deserved the rating AA in 2017 against 9 in 2016 and 8 in 2015,
  - 7 institutions deserved the rating A+ in 2017 against 6 in 2016 and 10 in 2015,
  - 14 institutions deserved the rating A in 2017 against 16 in 2016 and 14 in 2015.
- 4.4.3 Table N°3 shows that these 33 institutions scored over 80% and included 6 non-AADFI institutions. These 33 institutions are on the 2017 Honor Roll (Framework 4) as the most performing institutions of 2017.
- 4.4.4 In view of this good result of 2017, we can be proud of the remarkable progress of the African financial institutions' adherence to the PSGRS mechanism and the dividend they are earning in terms of improving their performance. In eight years, the number of participating institutions in the Peer Review has increased from 33 in 2009 to 49 in 2017 while the number of institutions on the Honor Roll table that was 5 in 2009 is 33 in 2017. These indicators highlight the role of development instrument exercised by AADFI, as an extension of the African Development Bank.

## **V. CONCLUSIONS AND RECOMMENDATIONS**

### **5.1 Conclusions**

- 5.1.1 The results of the Peer Review of the institutions participating in 2017 are very satisfactory. The benefit from Peer Review participation is much appreciated.
- 5.1.2 It is highly desirable that all African Development Finance Institutions agree to participate in future Peer Reviews for their own benefit, as clearly stated in the objectives of the PSGRS in paragraph 2.2.1.

### **5.2 Recommendations**

- 5.2.1 In the light of this report, the Consultant recommends to the Peers to approve the ratings assigned to each Participating Institution and to proclaim the 33 deserving institutions that appear on the Honor Roll as the most performing DFIs in 2017, according to the PSGRS.
- 5.2.2 The Rating Certificate will be issued only to the institutions that submitted their self-assessment results with a validation certificate from the appropriate External Auditors, Supervisory Authorities or the Central Bank.
- 5.2.3 It is further recommended that the Peers to consider favorably the proposal for an in-depth comparative study of African DFIs and development finance institutions in Asia, Latin America and other similar institutions. This study should be done with the assistance of FEMIDE (World Federation of Development Finance Institutions).
